FOREWORD

The Harmonized Chart of Accounts (COA) for Local Government Areas (LGAs) in Gombe State represents a pivotal step toward enhancing fiscal transparency, accountability, and efficiency in public financial management. Developed in strict compliance with the International Public Sector Accounting Standards (IPSAS) and the 52-digit National Chart of Accounts (NCOA) framework, this document serves as a critical tool for standardizing financial transactions across all tiers of government.

This harmonized COA is the culmination of extensive collaboration between the Gombe State Ministry of Budget and Economic Planning, the Ministry of Finance, and the Office of the Accountant General, ensuring alignment with both national and state-level financial governance frameworks. It also adheres to the objectives of the Nigeria Human Capital Opportunities for Prosperity and Equity (HOPE-GOV) Project, a World Bank-supported initiative aimed at fostering transparency and strengthening fiscal governance at the local level.

By adopting this COA, Gombe State reaffirms its commitment to modernizing public finance systems at the local government level, enabling seamless tracking of revenues and expenditures, and facilitating data-driven decision-making. The structured classification of administrative, economic, functional, fund, programme, and location segments ensures clarity, consistency, and comparability in financial reporting. All LGAs are hereby mandated to utilize this harmonized framework in preparing annual budgets, budget performance reports, and financial statements, thereby promoting uniformity and accountability across the State.

We extend our gratitude to all stakeholders, technical teams, and development partners whose expertise and dedication have made this harmonization possible. It is our collective belief that this COA will serve as a cornerstone for sustainable development and effective resource management in all local governments in Gombe State.

Hon, Abdulkadir Mohammed Waziri

Honourable Commissioner

Gombe State Ministry of Local Government and Community Development

I.0 BACKGROUND

I.I Introduction

Chart of Accounts (COA) is a complete list of budget and accounting codes with each item uniquely represented by a code and grouped into tables of related data for tracking, managing, and reporting budgetary and accounting items in an orderly, efficient, and transparent manner.

In compliance with the International Public Sector Accounting Standard (IPSAS), the Federal Government of Nigeria, the 36 States and the 774 Local Government Councils have been mandated to adopt the 52-digit National Chart of Account (NCOA) codes. The NCOA is made up of six (6) segments of 25 parts and 52 digits each, representing an essential detail of public financial transactions. The 6 segments include the Administrative, Economic, Functional, Fund, Programme, and Location/Geo-location segments.

In compliance with this requirement, the Gombe State Chart of Accounts (CoA) was prepared in line with the NCoA and issued by the Office of Accountant General and the Gombe State Ministry of Budget and Planning. Hence, to comply with this good practice, the Harmonized Chart of Accounts for the eleven (11) Local Governments in Gombe State was developed in consistent with the State-level Chart of Accounts. This development is also in compliance with the requirements of the Nigeria - Human Capital Opportunities for Prosperity and Equity (HOPE) Governance (HOPE-GOV) Project, a World Bank-supported initiative supporting transparency and effective fiscal governance at the local government level.

Going forward, all local governments in Gombe State are required to prepare their annual budgets, budget performance reports, and financial reports using the harmonized local government contained in this document.

1.2 Overview of the Chart of Accounts Segments¹

i. **Administrative Segment:** This segment contains codes for various administrative units, departments, or divisions within the government organization. For example, it has codes for "Finance Department". All the administrative or institutional units of the government are grouped into five sectors, namely: Administrative, Economic, Law and Justice, Regional, and Social Sectors. However, only the Administrative, Economic, and Social Sectors are relevant to the local governments. The administrative classification provides information on the public sector organizations that incur expenditures or receive revenues on behalf of the government. Thus, it identifies the entity that

¹ The building of the current CoA structure adopted at the state level and used for this CoA was supported by the NGF working with Federal, State and Local Governments and various partners, including Bill and Melinda Gates Foundation and FCDO PERL.

is responsible for managing the public funds. This provides the basis for establishing the responsibilities for the day-to-day administration of government business. The administrative structure can enhance or undermine the process of public expenditure tracking and analysis. The structure of the organizational hierarchy is reflected in the series of codes for ministries and departments reporting under each ministry.

Administrative segment has 2 digits and has is broken down into 5 levels/parts as follows:

- Sector Five Sectors as defined in NCOA (Administration, Economic, Law & Justice, Regional, and Social) – 2 digits;
- Organisation Ministries 2 digits;
- Sub-Organisation (Main Ministries, Parastatals, Agencies) 3 digits;
- Sub-Sub Organisation Headquarters and Branch Offices 3 digits;
 and
- Sub-Sub-Sub Organisation Departments (e.g. finance & accounts) 2 digits.
- ii. **Economic Segment:** The economic segment focuses on the economic nature of financial transactions. It classifies transactions based on the type of assets, liabilities, revenues, and expenses involved. It helps in tracking financial resources and economic activities, such as "Tax Revenue," or "Employee Salaries." The economic segment has 8 digits broken down into 5 levels/parts as follows:
 - Account Type (1 Digit): Maps all transactions into Revenue,
 Expenditure, Asset, and Liability (REAL) and recognises FAAC items as either Revenue or Expenditure;
 - Sub Account Type (1 Digit): Details the Account Type and maps it into the various Financial Statements and provides a summary of all transactions;
 - Account Class (2 Digits): Breaks the Sub Account Types down into a group of related items and serves as a Note to the Financial Statements;
 - Sub Account Class (2 Digits): Breaks the Account Class down into more details and serves as another level of Notes to the Financial Statements; and
 - Line Items (2 Digits): The lowest detail of every transaction or budget item. Used to generate a detailed transaction/budget list.
- iii. **Function Segment:** This segment classifies transactions based on their purpose or function. It is often used to categorize expenditures by the services or functions they support. For instance, it might include codes for "Education,"

"Healthcare," or "Infrastructure Development." The functional classification is fully compliant with the Classification by Functions of Government (COFOG), a detailed classification of the functions, or socioeconomic objectives that government units aim to achieve through various kinds of outlays. It has 5 digits and includes:

- Main Functions or Divisions (3 Digits): Represents broad objectives of government e.g. General Public Services, Defence, Health, Education, etc.
- Functions or Groups (1 Digit): Details how the broad objectives are achieved e.g. Public Health Services, Secondary Education, Tertiary Education, etc.
- Classes or Secondary Functions (1 Digit): Details of how the Functions or Groups are achieved e.g. Junior Secondary Education, Senior Secondary Education etc.
- **iv. Programme Segment:** The programme segment is used to track and report on specific programs or projects undertaken by the organization. It provides a way to link financial transactions to the objectives and outcomes of these programs. Codes in this segment could represent initiatives like "Environmental Conservation Program" or "Public Housing Project." There are 14 digits and five levels in the programme segment:
 - Level 1 = Sector (2 digits) these are in line with the 21 Sectors being used nationwide to date, e.g. Agriculture = 01, Health = 04, Education = 05.
 - Level 2 = Objectives (2 digits)
 - Level 3 = Programmes (2 digits)
 - Level 4 = Projects (6 digits)
 - Level 5 = Activities (2 digits)

The programme code in this CoA is currently at the programmes level only, the full code, including the Projects and Activities level codes, can be assigned using a Programme Code Constructor based on the list of projects and activities of each government unit until further updates to this CoA.

- v. **Fund Segment:** In public sector accounting, various funds are established to manage specific resources for different purposes. The fund segment of the chart of accounts categorizes transactions according to these funds. The Fund Segment will fast-track the implementation of IPSAS, particularly with respect to the full disclosure of government revenue, including external assistance. The fund code contains 5 digits and include:
 - Main Funds (2 Digits) A list of the broad categories of Funds available for financing government activities e.g. CRF, Aid & Grants, etc.

- Sub-Funds (1 Digit) A more detailed list of the Main Funds e.g. Main Envelop (Budget), Multi-Lateral Aid & Grants, etc.
- Fund Sources (2 Digits) Third-level breakdown of the Fund segment detailing the various Funds mapped into Sub Funds e.g. Pension & Gratuities, Service Wide Vote, ECOWAS Fund, European Development Bank, IDA-African Facility etc
- vi. **Location Segment:** Location Segment or Geographic Codes (Geo Codes) are used to identify the geographical location of an organisational unit's expenses or project so that an analysis of government budget and expenditure along the various zones, states, local government areas and wards can be done. Geo Codes are made up of 8 digits and 5 parts, namely: Zones (representing the 6 Geo-political zones of the country) 1 Digit, States (representing the 36 states and the Federal Capital Territory) 2 Digits, Senatorial Zones (representing the 109 senatorial zones) 1 Digit, Local Government Areas (representing the 774 local government areas) 2 Digits, and the Wards 2 Digits.

The summary of the segments and their digits is presented in the table below.

| S/No | Segment | No of Digits | Description |
|------|----------------|-----------------|---|
| 1 | Administrative | 12 | Entity Responsible/Cost or Revenue Centre/Who? e.g. Social Development and Education Department |
| 2 | Economic | 8 | What Transaction? e.g. Expenditure on Local Travel & Transport |
| 3 | Functional | 5 | Purpose? e.g. General Medical Services |
| 4 | Programme | 14 | Why? e.g. Primary Health Care |
| 5 | Fund | 5 | Source/Financed by? Main Envelope- CRF, Domestic Aid & Grants |
| 6 | Geo Codes | 8 | Where? (Location of Transaction) e.g. Akko Ward, Akko LGA, Gombe State |
| | TOTAL | 52 | |

I.2 Special Note on Primary Healthcare and Basic Education Identifier Coding

In line with the requirement of the World Bank HOPE-GOV project that requires the CoA to report on Primary Health and Basic Education budget, Basic Education budget can be identified through the Functional Segment:

- Sub-Function (level 2) code 7091 PRE-PRIMARY AND PRIMARY EDUCATION, or
- Detailed Function (level 3) code 70912 PRIMARY EDUCATION

However, there is no equivalent for Primary Healthcare in the Functional Segment. Therefore, the activity level code in the programme segment should be used to code for Primary Healthcare items in the budget following the structure below:

• 01 – Primary Healthcare

This same structure is being used at the State level but inclusive of the levels below for higher-level health activities.

- 02 Secondary Healthcare
- 03 Tertiary Healthcare
- 04 Multiple / Other level of Healthcare

3.0 CONCLUSION

The Harmonized Chart of Accounts (COA) for Local Government Areas in Gombe State establishes a robust and standardized framework for organizing, classifying, and reporting financial transactions. By integrating the six segments of NCOA, this COA ensures that every financial activity is meticulously categorized, tracked, and analyzed. This harmonization not only aligns with global best practices, such as IPSAS, but also addresses local governance needs by enabling precise expenditure tracking, revenue management, and performance evaluation. It empowers LGAs to align their financial operations with strategic objectives, ensuring that resources are allocated efficiently to critical sectors like education, healthcare, infrastructure, and social services.

The successful implementation of this COA will enhance fiscal discipline, reduce ambiguities in financial reporting, and strengthen public trust in governance. As Gombe State continues to prioritize transparency and accountability, adherence to this framework will be instrumental in achieving sustainable development goals and improving the quality of life for all citizens at the grassroots level.

We urge all local government authorities, financial officers, and stakeholders to fully embrace this harmonized system, leveraging its structure to drive innovation, equity, and prosperity across Gombe State. Together, we can build a future where public funds are managed with integrity and directed toward impactful outcomes.
